DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-49, drawn to a display apparatus, classified in class 345, subclass 1.1+.
 - II. Claims 50-61, drawn to a camera apparatus, classified in class 348, subclass 207.99+.
2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions group I(i.e., claims 1-49) is related to a display apparatus and the group II (i.e., claims 50-61) are related to a camera apparatus which have different modes of operation and effects from each other.
3. Newly submitted claims 50-61 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: These noted claims are directed to a camera apparatus which have different modes of operation and effects from the display apparatus claims 1-49.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for

prosecution on the merits. Accordingly, claims 50-61 must be canceled as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
